Things could probably move much quicker if you supplied a few things:

The nick you were banned under.
The reason for the ban (load up RenGuard, and the information should be in the text box at the bottom)
Any reason for an exception to the ban.

when you say youre sorry do you mean youre sorry you got caught or youre sorry you cheated?

also, why did you hack renguard to get banned anyway?

to bypass rg would be to cheat while renguard is running; that way when ppl use the !forcerg command, it dosnt work

what cheat were you using. lol, you *did* bypass it using the lan exploit didn't you. renguard don't care aslong as you are not running it when you are cheating. anyway there are servers that don't need it. just dont cheat so you dont get banned from them.

it is easy to unban ur self anyway

Does it matter if you're banned anymore?

I mean, it's not like most servers approve of RG anymore is it?

Its not fool proof to say the least.
Way to many people fall back on RG when they are getting pwnt
its like going to the arcade and yelling at the Area 51 game for cheating you and you rip the gun
off and blame something else.
