Hi,

i want to rent a server for my own clan, but i don't find a website for that, can you donate me a website ?

and i don't understand, i have 2000Mo down and 500 Ko UP,

but if there is 6 player server is lagging :S

P4 3.00 GHZ

512mb ram

what's problem ?

thanks by advance !

500 Kbit is not enough to host anything beyond 6 players. You need AT LEAST about 2000 Kbit to host a 20 player game.

Renegade servers require a huge amount of upstream...probably more than any other game, per player.
