I been trying to search for a site that lists the scripts in leveledit and what they do`?

I looked at renegadewiki, it only has a few and I already know what some of them did.

So does anyone know of a site or something that lists the scripts and what they do`?

Need to know as its hard to do things in leveledit without knowing what script you gotta use for things to work. :/

Thank you.

readme.txt that comes in the scripts.dll zip file would be a good start...

Please visit RenegadeWiki.com for answers to just about every question you can think of about Renegade! The ULTIMATE Renegade resource! RenegadeWiki.com

it includes docs on scripts (few of the more commonly used ones)

---

edit: Crimson, you might wanna take a look at a few inputs in API:CommandsClass ... it's screwed up (eg: set_model)

Would'nt it be better if there was a wiki which teaches people how to write scripts?
