The thing is, That was not a threat to XWIS as a whole, but towards one of their members (who happend to have a nickname of xwis) for cheating. With this i feel that he is the victim since he was threatend by being "hacked" by fellow members. He has been kicked out of their clan (which is perfectly reasonable).

I don't see why he should be rejected whilst requesting help.

(The above statment was not defending this player, it was stating facts.)

SSAOW and SSCTF are built for FDS's. You can try the scripts from them but wheather they will work, I don't know.
