Check you followed these instructions:

[http://www.thekoss2.org/article.php?menu=game_info&cat=\[REN\]Brenbot](http://www.thekoss2.org/article.php?menu=game_info&cat=[REN]Brenbot)

It's prolly an ip/port you didn't set equally in server.ini and brenbot.cfg or you didn't set remoteadmin=true.

you need to install a server side bot

www.NightRegulator.co.uk << install that, itll add the commands to ya
