Why can't you use custom skins? It doesn't change anything for the other players, it just makes things look like you want them to look. Can you guys at Black Hand let us join pure servers with skins? Customization is IN right now.

Thanks.

It's not up to BHS to let you use skins or w3ds on servers that are running pure mode.

Pure mode exists for that specific reason.

Post on the forum of the server owner, point out that Pure servers are empty 99% of the time.

Well, I guess your right, but if there is a skin, it gives you a message in the Renguard Client saying you can't join pure servers. Anyways, your right. No one goes to the pure servers. This thread can be locked now.
