If you had the chance to buy Cabal, or EVA, just for \$100 a piece. But you can only buy one of these, which one would you buy and what would you do with it? LOL

I'd buy EVA, since it's a chick, it's much more helpful, and DOESN'T rebel and cause an apocalyptic war between man and machine.

But that's just me.

I'd buy CABAL and try to have him implanted into my head.

Or maybe into my voice box, just so I could talk that way.

Oh yes. Having CABAL's voice must help when picking up chicks.

Imagine CABAL saying a bad pick-up line. Rofl...

"I'd like to reassemble your Tacitus."

Heh heh...that's an entirely new thread there.

CABAL wouldn't be bad. Just Hard code Asimov's laws into him, and he'll be fine.

bad pickup line #2:

- Nod: "Define favourable outcome, CABAL."

- CABAL: "They all die" *turns to female* "Except for you"

EVA. I prefer my computers without the psychosis.

If you buy both, and put them together in 1 room, do you think that they would discuss their differences GDI vs NOD or just self destruct? LOL

E-E-R-R-R-O-R! E-E-R-R-R-O-R! BOOOOOM!
