Hey, i got a question about NightRegulator for Nightma12.
Its like this, i try to start up night regulator and it says

"Run-time error '424':
    Object Required

I really have no clue what this is, and i have never had this problem b4, NR is like the best
regulator out there man lol.
So please nightma12 if u know what this problem is, then contact me or post.

er?

are you installing the patch correctly?

are you sure none of your dll files in your NR dir are corrupt?

contact me on irc

irc.aohost.co.uk + pm Nightma12
