when he says 'weakspots' he asking what to a tank is similar to that of a headshot to an infantry.

i dont think tanks have weakspots.

Different weapons do different damage to a tank. It is the same with different vehicles hitting a tank.

MRLs, Arty, bikes,buggy and hummers will be decimated at range by a Noob-jet.

Raveshaw likes Meds, Mammys, APCs and the other vehicles above. Whereas Moby likes frying Stanks with the volt-auto.

Dont forget that all snipers like any helicopters. Helos are a snipers paradise.

today i was rav nd tried shooting at the wheel of my nod buggy, then tried it on a flametank and it did the same damage (80) as shooting it anywhere else  
hmmm its seems like there aren't any weak spots maybe i should just stick to good antivehicle weapons

The automatic pistol can effectivly kill a tank in 9999 shots, I suggest you try it.

Just remember that a 1000-point character, especially Raveshaw is a prize for a sniper, any sniper.....headshot, dead lol.

Venture into the field and be taken out easily by even a basic soldier.

So you carry on being a base-camper and I will attack with my tanks, arty + MRLs. Remember that there will have to be someone repairing your base, because I always have an engineer/hotty/tech to repair my vehicles.

I know this ain't what you are looking for but I'd say the weakest spot of a tank is its driver.

the number of times I have finished off a chopper with a pistol and then been accused of cheating, it's almost an acceptable weapon for finishing off light vehicles.

No weakness in the armor that I know of, but I sometimes get in a situation where I seem to do no damage and need to move. Or when I'm repairing I see no progress, so I hop in and back out and it repairs normal. I used to think it was just lag but I don't know. Sounds more like a bug, or I'm just stoned.

In single player it is. I just wish multiplayer repair guns had that ability.

Actually a tank does have a weakspot. Do some experimenting in Multiplayer Practice and look at the life boxes when you shoot at defferent places. Trust Me They Have Weak Points.

Friendly Fire Should Be On.

This is what you do: Make sure that friendly fire is on on multiplayer practice, go to multiplayer practice, get 2 tanks, and shoot at different places and keep an eye at the life boxes, prefferably shoot at one place 2 times, then remember what place it was and remember how many boxes it took away. Then do it to another part. You can have more that 2 tanks so you can shoot at more that 2 things and compare them together.

Tanks do not have weak spots.

One possible explanation for what you're thinking about: some tanks (e.g. med, light, arty) do their damage in two separate portions. If the server isn't great sometimes you only register part of the full damage. With host advantage you always get full damage.

---

Huh, There is a advantage spot on the GDI med tank and apc's

If you shoot in a certain position, It does no damage

So um, Tanks have a disadvantage

I did a test on the weakspot thing. And what are my results?

THERE ARE NO WEAKSPOTS! I thought all along that there were weakspots. But each place shot at gives the same ammount of damage. Try it for your self, shoot a tank, get in it... check the health, repair it, and do it again.

omg omg try to shoot a rocket at that point  
it flies right thru the tank as if its not even there  
so if u turn the tank so that its side is facing enemy tanks nd u got a gunner nd hot behind it, it  
would be extremley destuctive nd incincible, ofcourse the gunner wont c where hes shooting, but  
could b useful at close range

NICE!

I WONDER IF IT WILL BE THE SAME WITH ANYOTHER CHARACTER.....  
I'LL HAVE TO DO SOME TESTS....

Your correct about infantries and buildings but really for tanks your paying for more armor etc, like  
a arty if a havoc hits it say 5times it's dead with a light tank takes alot longer

/iROwn3r
