HI

can any one give me a step by step guide on how to set up the miniconsole so when you press enter on it you get the obelisk gun and get 2000 creds taken off.

i have read the other posts about the obelisk gun and it says about making it from a rep gun and adding obelisk ammo ?
i have no clue how to do this so if some 1 can make it simple for me that will be great start

thanks

nevermind i have sorted it ^^ but they is still something i need to know

1,how do i get gdi samsites in level editor
2,how do i decrease the power of the obelisk gun

thanks

1. serversided? use objects.aow? then I gues you can add the nod and change it to GDI...
2. ->Munitions -> Explosion -> Explosions_Weapons -> Explosion_Obelisk , the settings tab not 100% sure

(you need to change the explosion, cuz as you know the beam it self doesn't do damage, only where it its the ground(the explosion))

still cannot get a gdi samsite that only shoots nod.

do you know the script used so when u enter a certain zone u get a personal messgage saying like well done u found bla bla

yes, JFW_PPzone

(for the SAM site try: M05_gun_emplacemt)

JFW_PPAGE_Zone

that is the correct 1, the previous wasn't that misspelled? was it?

JFW_PPAGE_Zone does not exist

^^NEVERMIND^^i had the wrong scripts yes i am a N0oB N0oB
whichever way u like it

thanks oblivion165
