The Tsunami-Alliance multi-gaming community is recruiting for its [LoS] Renegade clan. We play mostly on WOL/XWIS, but many of our players also play on GameSpy. Many of our founding members are predominantly GSA players but have recently switched to WOL/XWIS and clanwars.cc for more competitive play. ( Who else is going to play our friends in #GW??? )

We're currently sitting on 9 members (half of which are active every day of the week) - and all of which are very good players. We are looking to recruit semi-pro to pro players that are interested in serious Renegade competition on the clanwars.cc ladder. You must be active. Just a few weeks ago we had a huge upset by defeating the 2nd ranked clan in a 2v2 placing us at #4.

Our clan leader was Voxom, but due to school starting up again he has selected to place his focus on his studies and we are also looking for a qualified leader. Qualifications for the leadership position will be strict.

Tsunami-Alliance is a multi-gaming community which facilitates both competitive and recreational gameplay. We play a variety of games and have clans for a few. Tsunami is NOT a clan. For this reason we also have the capacity to support multiple clans [per game] with independant names and leadership. So if you are interested in starting your own clan under our community - you would be eligible for free webhosting for your site, sharing of our forums and exposure to other communities/games, free use of our community teamspeak (with SA and a private channel for your leader), and a chance to meet a lot of really cool people.
