<http://www.cncrenegade.info/modules.php?name=Content&pa=showpage&pid=99>I started this about a week ago. I finally got it to where it's almost exactly how I envisioned it to be... So tell me what you think of the map so far, I'd appreciate it. [January 09, 2003, 14:18: Message edited by: aircraftkiller2001]

He's just copying something I said to AllGusto, a known thief and liar in this community. I'd avoid him, if I were you.

wait to see more. More texturing and I am sure it will out-do Glacier.

I think you should use the rock texture without the plants

I had a closer look, I take back my comment about more textures. I do think it looks too grey though.

I like the idea of the landing Orca, but IMO the GDI insignia on the wall looks out of place. Just doesn't blend in right. The bottom of the walls of the canyon and the land bridges look awesome, but the top of the ridges and the waterline of the river look too straight and smooth to be natural.

The only part that looks REALLY good is the river and surrounding walls, the tunnels aren't the best I've seen but are close

everything is good except the water, you should use Andre's water like in his map Archipelago, heh I think that's how it's spelled

quote:Originally posted by aircraftkiller2001:One which you aren't able to comprehend. You did not answer my question, are you unable to "comprehend" my question? Guess not. By the way, the maps need help, the GDI Power Plant texture is really much off, and is this going to be another bad FPS map like Glacier.

Mountains look better, the river [edges] still looks too smooth, it also looks a bit too shallow IMO. Don't make it deep enough so that infantry can crouch below the water, but I would make it knee deep or so at its deepest point.
