Well, I did a very stupid thing... I deleted my C&C First Decade from my PC without uninstalling it. Now a series of problems have come up....

1) I cant uninstall it / reinstall.

So Im now fucked with no C&C.

2) RenegadeTool2 (LevelEdit) Doesnt work

Now I cant finish my mod project.

3) Pretty much both 1 & 2.

Anyone have any ideas? I cant reformat as Ive just done it about 2-3 weeks ago.

It should still be in the registry somewhere.
