Hello guys.

I need edit some fonts in game. Exactly this:

I need edit these fonts because i want use res 1280x1024 and on this resolution are fonts very small. What i must exactly edit??? Is it possible???

Thanks for your help.

I'd guess:
FONT_LISTS=Arial MT, 8, 0

Use a smaller resolution? I can't use anything larger than 1024X768, but then my screen is old and my graphics card is useless. Moving on:

Sadly =HT=Gunny's posts were the core of that topic and were curiously edited out, the topic is also dated May 05. As a note to newbies / those who didn't know, =HT=Gunny died of cancer on the 2nd of September 2006.

As a guess, the font in question would be the FONT_LISTS one...

thats a different problem, you turned off (or on?) one of the settings which seems to exist only to blur fonts.

To undo this type
`

to open the console (while playing) and type in
SCREEN_UV_BIAS

then hit enter.
