I love how everyones answer is now. "OMG Google it."

You know... in that time you could have given a site that might offer some decent skins. Instead you contributed nothing to the thread. Way to go.

I personally don't know of any real great sites offering skins, but am interested in seeing if anyone else does. (oh.. and I HAVE googled.)

Um, seriously, even the first result has a nice collection of textures.

You're an idiot. I gave him 3 web sites that provide skins for Renegade. Next time read more carefully.

When i get adobe photoshop 7 back on my computer i'll be happy enough to make some skins for people that wouldn't be a problem.
