Good to know it's coming.

Now, did you just find this on their forums or did they ask you to post it?

It's funny that they post about downtime about every third downtime.

Quote:Please note the following update :  
The network mainenance and the upgrade of the controller on XWIS server A were completed successfully.  
The upgrade of the controller for server C has not yet been completed and will be done tomorrow (Friday).  
This will therefore involve some downtime for Renegade and Tiberian Sun at some stage tomorrow.  
They have not yet confirmed the exact time but we will post this on strike-team.net homepage as soon as we know
