All I wanted to ask is what happen If Install the Renegade of TFD in the laptop of my brother because he want to play with me in the LAN, so I have heard that if you use same keys you cant play by WOL does anybody can tell me if this is true or no, I mean apply that just for the same house, does someone can tell me what should I do, Should I send a e-mail to Westwood or something to ask... =)
to everyone that help me thankfully thanks =)

is i understand right, he want to install renegade on 2 computers in his house. and him and his brother want to play renegade.

yes you can do it.

We don't use WOL anymore, we use XWIS. XWIS does not limit how many times you can connect with a valid serial so long as it's valid.

Fact: A lot of people call XWIS WOL.

Telling them that WOL isn't being used anymore is unnecessary.

When he says he wants to email Westwood it is. They don't exist anymore.

You are limited to the number of nicknames per serial, I believe it's 9. (Correct me if i'm wrong).

You and your brother will be limited to 9 nicknames between you, otherwise I don't see any issues.

Ok, So i can Install the renegade of the first decade in the laptop and that my brother can play via WOL with me or any server without have problems, tell me if i wrong, because that is what i understand with all this,,

Thank you very much =)

He can play on his laptop and you can play on your PC at the same time in the same or different servers with no issues.
