Well hello.

I am just posting to give explanation for my actions. in the Month of July of 2006, i made a decision to quit renegade for good. So I wanted to go out with people remembering me. So I cheated on Virtually EVERY server on the XWIS list. I was Froce rg'd the first time around then used a Renguard bypass called (\*cheat name removed\*) Which I was beta testing for 0X90. After I went back into every server again and finally got banned via IRC onto my IP. But I didnt stop there, I changed my ip and did it numerous times and pissed off alot of people. The only server that I wanted to piss off the most would be Justin Scholtez Server, Since he ripped off a good friend of mine for \$1,080 US.

I am here to make amends with the community and apologize for my actions in July, I would like to eventually get back into this community (if allowed). I would also like to mention that "CyberPunk" the so called king of Renegade cheats has left the online gaming community for now and more than likely for good. (<WEBSITE REMOVED>) and (<WEBSITE REMOVED>).

Thank you for your time. And Sorry for my idiotic / immature tactics

Tweakme: donate 10 \$ at least to every server you cheated on to make it right and people might think you're serious. Take responsibility for your actions or else stay away. We don't need you. Words don't mean a thing, actions do. You cheated on servers that had the rule not to cheat. That's an action. A word is a word.

Even if you're now "bettering your life", you'll just bypass bans as u're banned from most servers. How is bypassing bans bettering your life?

Seriously, How much time of you're life did you actualy waste?

I'm sure no server owner got "pissed off" But I'm sure they gained more EGO becuae "Hey i banned tw34km3 on his new IP".

You must all think your really big? Nad fuck that 10\$ per server, its not worth my money. I wasn't expecting any acceptance, nor do I really give a fucking shit. I could care less if I am banned from everything to do with Renegade, I only wanted to appologize to the community and explain myself to maybe show WHY i did it.

SO You can all go fuck yourselves for all i care. Im done with this community for good.

Not searching for acceptance? If that's true, you could've saved some time by leaving this part out.

You know what? It would proly also work and be cheaper for you to donate a decent amount to BHS, so they can invest it in their RG-project to stop people like you from doing this again.

I love predictable people like you.

"I am coming here to apologize, and I hope I can be accepted again."

<insert some negative responses>

"FUCK YOU! I don't need your community. All I did was try to apologize, but fuck this. I'm done."  
-----

As far as what you just said about not expecting to be accepted...

Tw34km3 I am here to make amends with the community and apologize for my actions in July, I would like to eventually get back into this community (if allowed).

That sure looks like you'd expect it, and if you weren't expecting it, you sure were hoping for it. Don't try to act like an badass like you're better than everyone else. YOU are the one who cheated. YOU are the one who got banned. YOU are the one who created this thread.

As Goztow said, words don't mean anything. If you want to have your apology accepted, you need to do more than just apologize. Criminals don't get off of their crime by apologizing, they have retribution.

So... we should just accept you back with open arms because your sob-story apology surely isn't just a cheap excuse to get yourself un-banned so you can keep right on doing what you do best with no consequences whatsoever. It's just plain common sense that you aren't going to be welcome in the Ren community when you had your chance and used it to give a great big giant "fuck you!" to everyone you ever played a game with.

If you really are sincere about changing your ways (which I doubt), the best thing you can do is not make a big thing about it. Don't post about it, don't talk about it, don't bitch about it- we don't give a flying fuck about how sorry you are. Take your licks and go find a way to play the game without cheating, and remember that no matter how sorry you may (or may not) be, most people aren't too keen on giving second chances to cheaters.

This n00b was caught cheating so he made some fancy story up. I don't believe a word he's said from start to finish.

You got caught. Owned by anticheats and good mods. Now go die. I don't want to hear any pathetic apologies because if you had half a brain and any gaming ethic left in your body you would have never cheated so blatantly and for such ignorant reasons. You've proven your character by your actions and now you can think about that every night when you go to sleep.

You said you don't care what we have to say, but I know your burning anger grows in your heart because you've been outcast by a community that never accepted you.

Btw, those who make cheats need a lot more help than some punk kid like you. They're going to need an army of programmers and a shitload of a time if they're going to withstand the next round of attacks from this community. They might as well hang themselves now.

Let me get this straight. This guy wanted to leave, so he cheated, and now he wants to come back again?

That is like cheating at school during your final year, then being expelled (for life), and then wanting to come back.

How naive can you get?
