Well, I finally fixed my computer (had a couple internet issues) and looking to start playing renny again. BUT I can't find my CD key, i HATE cd keys. Anyone willing to share their's with me, or know where i can get one other then buying the whole game pack again? Where I live, you can only buy the C&C Pack with 4 or 5 games in it for like 25 bucks... not really a worthy investment considering I've bought it twice already... and i'm broke

I'd love to start playing. PM me folks if any ones interested. I could trade my Starcraft cd key if possible..

I don't think XWIS checks to see how many times a valid serial is used, so I'll give you mine -- check your PMs.

You'll definitely get help in the mod forum if you post it. Many of us still care.

I dont understand how people can lose their cd keys, considering most cds are on the cd case. Your best bet mate is to invest in some draws or a cd tower.....
