I am useing SSAOW, and I want to make the characters spawn with weapons that they normally woulden't spawn with. But I do not know which ones are the wright ones to use!

This would be a lot easier to explain if it were all done in level editor. Although, the maps would then be a .pkg file, and all the computers would have to upload it first.

Ok first question are they starting with random weapons of just one.

If its not going to be a random weapon all you have to do is change the "WeapondefID" of "CnC_GDI_MiniGunner_0" and "CnC_Nod_MiniGunner_0". People say a picture is worth a thousand words so:

They will start out with weapons of my choice, how do I change the character?......Is this going to be a MOD?

P.S.: I appreciate our help.

Yes it will be a mod, the easiest way to do it is to skimpily rename "CnC_GDI_MiniGunner_0" to "CnC_GDI_MiniGunner_1" and then name a different GDI infantry that you want to spawn for GDI as "CnC_GDI_MiniGunner_0" (this would be useful if you didn't like scripting). Or you can use the script "JFW_Change_Spawn_Character" (the advantage to using that script is with enough scripting, you could set up a timer so every few seconds [or minutes, hours whatever] it would change what charter you spawned as [just ask if you want a more detailed explanation about this, but to save time I'm not going to explain it now.]).

Scripting is what I will do. But this will be my first time.

Quote: just ask if you want a more detailed explanation about this.

Please

Please help:

Ok, that is a different way of doing things I think, I meant you to do the scripting through level editor, then you don't even have to mess with ssaow. EX:

Oh and "POW" is a power up that would appear on the ground, "weapon" is what would directly be given to charter

I will PM you it.

And about the chicken, make a clone of it in the presets because the original will crash the game.
