If you don't want to get renguard, but you want the no-cd patch (for CD Renegade, not the The First Decade DVD version), I found it here: <http://www.renwarz.com/download.php?view.409>

Oddly enough, it used to be hosted at

http://beaconpedestal.com/nocd/djlaptop_renegade_1037_nocd.exe but the page has been down for a while. Anyone know what happened to djlaptop?
