Hey,

i have Visual Studio 2005 Express version.

How to create with Visual Studio 2005 Express scripts.dll

Build -> Build scripts

but not running whY?

You need the microsoft platform SDK to compile scripts.dll, see the wiki topic ->  
[http://www.renegadewiki.com/index.php?title=How\\_to\\_compile\\_the\\_scripts.dll](http://www.renegadewiki.com/index.php?title=How_to_compile_the_scripts.dll)

Also for scripts.dll 3.0, when it is released, you will also need the DirectX SDK.
