Any of you know where to download all, or most of the songs from singleplayer? I don't want to have to extract them with anything. I tried renegadecommunity and fileplanet, but they only have few of the songs.

I once knew a website where to download the music, but ever since I moved to my new computer, I lost that website.

Google search did not help.

This is the guy sites who made all the C&C ><http://www.frankklepacki.com/>

Site has a few of songs on ><http://www.cncnz.com/files/renegade/media.php>

Site to download xcc mixer, you can get all the music from this if your lazy ass decides to do use it > <http://www.game-maps.net/index.php?action=file&id=334>

You can also search for a thing called Unmix, download it, find your always.dat right click on it, choose to open it with unmix, and it will unpack it into a folder for you.

Enjoy.

Actually, that's an outdated version. Use the one from the actual XCC page. Click Utilities, and download the XCC Utilities and XCC DLL Pack (follow the instructions on the download page).

Many tracks are missing from that download. Here's a screenshot of XCC Mixer I borrowed off some other thread in this forum:

Notice how a lot of them are twice in that screenshot. However you are right, the other list is not complete.

Look at the title, he asked for "Music from Singleplayer". I don't see where all the other tracks come in as music from the single player missions.

Yes, that list is not complete but i never uploaded them so tell the person who uploaded them.

Just get them from always.dat
