Does Renguard work with Vista?

Renegade does. Renguard doesn't. I tested it myself.

Will BHS make a fix or a Vista version?

I hope so because I will use Vista in 2 months.

Does anyone managed to make it run on Vista?

I don't know.

Do you want Renguard on Vista?

Hell yeah!

I couldn't get the Renegade installer to start in Vista RC1, it just said that the program had stopped responding and did it's "Windows is trying to fix this" thing that never works.

However, although I haven't tested it in Vista final yet, I should have access to a Vista box soon I can experiment with.

sure..

Yeah, when it comes out along with Renegade 2 and Starcraft: Ghost.

Can I ask why you'd want to run Vista? I can't see anything about it that appeals enough to move me from XP.

At least wait one year until it has enough patches to make it half safe.

We'll make sure to get some Vista users into the private beta for 1.04, but at this point I don't have any reason to believe that it won't work.

Quote:Does Renguard work with Vista?

Renegade does. Renguard doesn't. I tested it myself.

Actually, they both do. You'll just need to set both game.exe and game2.exe to the WinXp SP2 compatibility mode(At least, I think that's what I did). And everything will run smoothly, so long as you're using the RC1 32-bit edition(The Beta 2 doesn't work so nicely).

Unless you meant that it won't run smoothly right off the bat, because you'd be right;)

I've been using RC1 on my PC since it was released to the CPP, and I've had no problems with Renegade or RG since(No more than I did with XP, anyhow). Now, if you use the 64-bit edition, than you can't really count on anything to work. It's a real compatibility nightmare. And keep in mind that GSA doesn't work with RC1 currently(You can't join a server or lobby unless you follow someone). And RenIP needs a compatibility mode too I think...Or it may have been the administrator mode.

If we're lucky, though, a lot of this stuff will be fixed by time Vista is released. I wouldn't count on all of it being fixed.

Oh yeah, if you're having trouble installing, then try the combatibility mode with the installer.

I've installed Renguard 1.03 and Renegade without any problem whatsoever on Windows Vista RTM. I didn't have to change anything- I simply installed in the normal way.

I connect to games via DC or ASE - GSA untested.

Versions of Vista tested on:

Home premium
Ultimate

Both 32bit

Both retail.

Wow Found soulution

Right click game and goto properties under compatibility there is a selection (Run this program as an administrator) I did this for game and game 2 everything worked I have a pic of what it looks like that I uploaded

The Beta version works for Vista. It's been tested by several people. We had to make some changes to get it working.

THIS WORKS! Key thing missing, change the thing he told you to above, then change the renegade shortcut to Game.exe instead of renegade.exe, also change compability to run as admin aswell and it will work Didn;t even need to try the beta

Why would you run 64bit? That's just a waste of time. It'd be much smarter to just stick with 32bit until there's more compatibility.

Like i told your bum buddy gayboy troop get a life kis and if you want me to go away come tell me to my face, i am soooo sick of you tough talking kids that are all tough on the net, but lets see you reply to my face kid? all i seem to get are excuses and full of shit bull shit from you guys, so if you expect me to go away , then come on tough guy over the internet, comeon tough guy, ya you got autokb on my server for cheating as well must be something biatch caught you using ey? lol ya , anyway head your own advice on your self there kid.

simple if you all dont like what i have to say then do something about it other then yapping the tough guy talk on here, ya thats what i thought and as for the so called kid that thinks i dont have a case against trooprm02 go be a lawyer for real idiot cuz if you dont think i have a case against this guy then all i have to say is LOL , oh yeah i forgot troop said i am poorer then dirt i best go get my legal aid lawyer, idiots i am here to teach you kids something and troop will be the 1st example of that as he will sooner or later find out, idiots.
