The only way it resembles a Heavy Tank is the twin barrels. Good job at taking a weed-whacker to the Red Alert theme, once again!

Would the same logic apply to people like you, who no one knows or cares about?Are you a "toadie" for the anti-Aircraftkiller people? Is everyone that is anti-Aircraftkiller a "toadie" for that?If anything here is childish, it's that you cannot accept the opinion of another. But hey -- whatever floats your boat, right?One last thing... Before you spew out "But you argue with people and insult them, therefore you do not accept opinions, you hypocrite!", I accept any opinions I hear or see... Doesn't mean I like them, and it doesn't mean I won't say anything about them or insult someone because of it.

Ohh ACK would you just SHUT THE **** UP!!!!There is no reason to slander what Laeubi says or makes. Also I think you are just plain jealous, worried that their mod will be better then the RA1 Mod ehh....You're such a two yearold. All you do is go around calling people younger then you yet you act like a baby that needs it's diapars changed and a bottle of milk....You have no place in this thread if you cannot give an honest opinion and don't try telling me what you said was honest. It was as biased a wieght scale with a Semi Truck on one side and a grain of sand on the other.

Are you a "toadie" for the anti-Aircraftkiller people?Aircraftkiller... why do you think people are against you? have you ever thought in you "intelligent" little mind of yours why people respond to you the way they do? Well, if you haven't figured it out yet i will tell you. It is your attitude towards things that you declare are unacceptable to you. sure.. you have the freedom of speech just like everyone in the nation does, but that doesn't mean you should abuse it in such a way that others are offended by your words. I would say that you have a mental disorder. i say this in my opinion, just like you declared that you had the right to state. Don't just start writing an anger message back, all i would like you to do is clam down and type something that wouldn't be hard to take. For example: "That looks nice but x, y, z, could use a little fixing and and a, b, c, has been already done by.. whoever.."But hey! its your life and if you want to live it in anger then that is your

problem. [January 14, 2003, 15:00: Message edited by: TestGun.]

To make the tank more like RA you might want to make the texture have either some soviet symbols. In general the texture looks kind of messy.

ack you complain about every1's mod saying they aint mods if they dun have 100\% original

content yet the word "mod" is shot for "modification" meaning to modify something in any way the word your looking for is "conversion" i can edit fire rate and dameage on guns and its a mod a mod is anything you do to alter a game you may have done alot for games in the past but now your basicly driving the comunity apart and "supoadly" helping the comunity by geting rid of crap mod's yet if you didnt diss ppl there would be alot more mods by now as instead of thinking its crap and quitting they would of continued and improved you cant say you have done everything perfect first time look at all the bugs in glacier if i made it i wouldnt of released it its lag central the base spacing and setup is too wide there is no real place to have a tank fight them gun turrets in the gdi base make the lvl that uneven its pointless playing as its only if gdi is compleat noobs that they should lose so learn to help not hinder and make ppl quit moding just cause your making a mod doesnt mean yours is the best and every1 else cant do squat if your maps are anything to go by though i wont be playing your mod and im sure quite a few other ppl will fell the same wether its on an ofical update or not since glacier is rarely used. bsides lets us use shotend words it saves time its easyer to read and ppl type like that because of sms on mobile phones and dont bother corecting spellings or abriviations as i dun give a \$h!7 what u think of my english.
