This is NOT my server. It is Kamuix93's server. Recently, he has apperently flamed Alex226 over ren via IRC. Normally I wouldn't care about him using my name for a server. But when he starts making people think I hate them, then it becomes an issue.

So yes. Do NOT beleive that this server (A0000000018 or something like that... I forgot, really) is mine. My FDS actually doesnt even work, to be honest with ya.

Here is the apperent convo between him and Alex226.

[21:16:39] Host: (Cabal1686@IRC) Alex you're nothing but a kiss ass.
[21:17:21] Alex226: Pfft, if I cuss you out, it will just wind up on A1's forums and you will invilve him.
[21:17:32] Alex226: so get the hell out of my face
[21:19:07] Host: (Cabal1686@IRC) All you do on the forums is suck up to people anyway.
[21:23:10] Host: (Cabal1686@IRC) No, you just suck up to people and get no where,

Yeah.

Hopefully you all will understand and won't mistake his server for mine. Cuz I dont even HAVE a server as I stated above.

Sorry, but flaming people and calling them a kiss ass is not a favor. And even it were the best server in the whole world, I wouldn't care. I'd still want you to not use my name.

To be honest, I actually thought that the Alex character was the same Alex from this forum, even though it didn't quite sound like him. Since the one I was talking to admitted to being a kissass...I just figured it must be him.

Apologies

I lauphed my ass off for awhile after I first opened it, it was M01 made into a corny RPG and at the

beginning it tells you "you're on a quest to find the magic sword" But there was no sword lmao, people were in there for so long looking for it ^_^

Wow, this server sounds pretty darn cool - not sure about killing, that doesn't sound like something that belongs in a FPS shooter but the whole sword quest sounds like a barrel of laughs.

Is the server still up?

1) No, I think he took it down.

2) Lol. Shouldn't it be the other way around? I mean, the whole PURPOSE of an FPS is to kill...
And not to find some sword that doesn't exist

Lol, wow..it was very boring in the server. Bad choice Cabal..?

But whatever, I played there, obviously Bored, but everyone would be using the shotgun and
Teamkilling eachother aswell as Spawnkilling.

Also, for all the Fools who actually thought there was a magic sword..Wow..Sad..
