Hey err, i used to play Rene ALOT. But i uninstalled it because it pissed me off. So ireinstalled it again, but havent yet done the update cos people said it does it autoatically when you go on advacned game listings. so i pressed that and Testing Bandwith came up. And crashed, i had to then restart my computer. I tried it againa nd the box that says Testing Bandwith diappeard then crashed again. Any solutions?

I recommend you to install the update manually.
