(Why is the delete thread button beside the move button?)

Oops.

I'm making this thread for the person who wanted to know about where to get the serial numbers.

Unfortunately I forget who it is, so hopefully he sees this. If a new thread is made, I'll merge the two. Until then, provide the help he requests here.

@Warranto: MOD ABUSE!!!!!! (Joking)

@ Original Topic Starter: Search these forums for "Global Serial" or edit server.ini and replace the serial with your Renegade disk serial.
