Long story short, I asked him for 1vs1, he dodged, he came back saying "I WAS BUSY", i said fine, set up another date/time and he didnt show again, later saying "I DIDNT DODGE, YOU DID!!!!1111", ROFL. Anyway, right about after the time he dodge TWICE, he made a new siggy:

<http://www.putfile.com/pic.php?img=4656158>

^ROFL, when i say that I teared laughing. So fucking fake:

1)noticed the SSnipe guy in the background meaning its some sort of cheaters channel, IDK.

2)he used the name "Trooprm02" like on these forums, but in IRC and ingame i use "trooprm02", but ofcourse he wouldnt know that considering me flames here and dodges ingame.

3)Like stated above, some unknown IRC server/channel. Its looks like something aohost related so Im trying to get some logs to see if the ip used for "Trooprm02" is the same for Jd's.

JD, g?G

Name a fucking list of people I stole money from.

I never hosted a server that has 300+ ping. It is basically impossible if your getting it from a datacenter from theplanet. Me and nightma basically have the same type of connection, and you dont complain of his? Idiot

BTW, You have a "bullshit" clan.

BTW, ONLY CAUSE YOU HAVE 300+ PING AND 56K DOESN'T MEAN EVERYONE ELSE DOES. IDIOT.

This is after i saw troop in the noobstories CCM 2 server. I joined up (on his team unfortunatley) and asked him for a 1v1. To sum up, he dodged his face off while talking all kinds of shit, but completely ignoring my requests for games. I ended up playing his buddy VKPhoenix in a 1v1 snipe, sat all over him and he left with 6 minutes remaining after he spawn killed me and declared himself the winner. Hmmmm.. reminds me of a certain mesa game that has invisible screenshots that only troopr02 can see. oh, and when the 3rd map loaded and i was finally on the opposite team as him, he of course, leaves the game like a little bitch. keep up the dodgefest troop.

so this retard sits in a public server cries about people dodging, cant play an actual game to back up all his shit talking.

Really troop, or whatever your name is, Produce some screenshots of you winning against wiggles, or anyone and i mean ANYONE that is actually a good player. Im not talking about these RR guys or anyone like that.

Im talking about people that are actually good at the game. You run around these forums saying your the most talked about player in Renegade, your the most retarded and most disrespected person in Renegade, I will give you that.

It is amazing, to read through some of these topics that your involved in, to see how many peoples posts you dont even respond to, mine, Stones, Spoonys, lots of people. Because you dodge games that you know you have NO chance of winning.

You remind me of those n00bs that play on public servers and try to drop end game beacons all game. Although those servers that actually have that turned on are possibly more retarded then the person using them. But thats a diffrent story.

1. I didn't look through 123 screenshots, more like the last 10 screenshots I had.
2. Even if I had 123 screenshots, it would take me about 3 minutes to look through all of them, so unlike you, I wouldn't say, "I have a screenshot of beating so-and-so, and then when I'm offered money to manifest this screenshot, i still can't seem to produce it"
3. The screenshot was uploaded months ago... Like seriously, 5 months ago.
4. No, you were *not* killed by an arty, for one thing, you were Nod, in case you are too stupid to look, and your team was winning despite my valiant efforts to steal nod vehicles and prevent them from buying any tanks for a good 5 minutes and having only managed like 2 tanks to get into our

base. The reason why I got the APC? Well, First off, I got a soldier and rushed the Hand of Nod... Put my timed c4 and everything on it, then you came in, and you had an engineer, being the awesome player you are you lost an infantry inside your own building, none-the-fucking-less and engineer - can you say free remote c4?

Oh-shit, I need one more remote c4 to kill it completely though. Oh thank goodness, here comes Trooprm02 with another engineer! Thanks so much, man! After I kill the hand of nod single-handedly with a soldier in thanks to trooprm, I went to the Airstrip where some Nod guy bought an apc, upon him going to his APC, I killed him and stole his apc and started killing troop and all the Nod guys. That's when Troop calls me a hacker. I like how you go out of your way to ignore the fact that you got ripped a new asshole that game. Perhaps you should apply the KY before joining a game with someone who knows how to play - or is that the reason why you won't play anyone good anymore?

It's nice to see that you go out of your way to answer my post though, and not like the other time you ignored the screenshot out of embarrassment, (You didn't say anything about an arty the first time I showed it to you) I could easily look for it by simply searching the end part of the screenshot, but you might think I took over an hour to look for it.

It's also nice to see that you go out of your way to pretend you are not the shitty-ass player that we all know you to be. Of course you thought I cheated. I beat the shit out of you, you are terrible. Everyone knows this, why are you trying to defend yourself now? Before you just say you've beat them in a 1v1 and that was that - If I were you, I'd say, "based on the public server I played with you and the 1v1 we had in the Hand of Nod, and me killing the Hand, you're a really shitty player" To take it even a step further, if for some reason you wanted to prove that you were even a spit-amount better than the shitty player you are, you would challenge me, and I - being you - would say, "I've played you and you were terrible" Not even caring to answer if you want to play 1v1 against the person or not, just because you're afraid to lose and not get better.

But we all know that's not the one instance in which I was with you in a public server - Remember the one time where I was in your server and for three straight games I was in it I had mvp, suddenly city_flying comes up and 'lo 'n' behold, I get switched to trooprm's team!

How about that one day where you said 30 sfps was better than 60 sfps? BRILLIANT! You are a marvel man, seriously

If you want to talk about caring so much, I don't go and ignore people like you do. I don't go and continue with the charade of being a good player and responding to every topic about me, like you do.

Then I said, "ok how would I know your name", and you make some bullshit story about having it in your sig? Idk if you did/didnt, both me and u know thats now how I know it. And finally ANOTHER BULLSHIT, "my brother used that account", ROFL. Seriousuly, you are a registered fucktard, Ignore User +1

You're a tard. What grade are you in? Because it seems that you lack the ability to read english. When did I ever deny that I had the nick h34d5h0t? It's even my registered name on some forums.. \ And where did I ever say my brother used my account.. sigh.. My brother bought the game of renegade, I was staying at his house and played it with him.

You're talking about changing stories.. last time you said you played me under the nick "Ralphzehunter"..

You're scared to lose so you make up shit lol? It's ok, dodge more, thanks.

Fake much? Like we're only going to get 1100 points in 14 minutes of playing, you probably took a screenshot of the buffer map and thought that it counted..

There is at least one person missing from that ss, the points on the left add up 599 short of the total.

I would more bet that it was someone switching to the other team, since it was a buffer map...

yes they did. nobody switched teams as everyone has points, unless GW players racked up 599 points between them before switching over.

Either way, it has to be the most retarded attempt to attempt to claim a fake win that these forums have ever seen.
