nice tech borders and transparency effects although I would have done more with the image - it's way to big though, would look a lot better scaled down. Think applying a metallic pattern to the outer (white) border would make the thing pwn some more.

- Too big
- Style was hot 3 years ago
- Naruto
- MexPirate thinks he's experienced or something
- You didn't make the background (don't care about Naruto)

Everything but the render was made from scratch.

As i said before, i made it big for a reason.

Age doesn't make a style any less pwnage.

And don't mock mexpirate, i don't see you with a siggy.

I wasn't mocking and I don't claim to be an expert - feel free to critise what I have done if you want:

the link in the middle, completes it. it looks really nice with the "x" with the white background on the left.

but why did you post that picture

i just can't see it, whats so bad about naruto in the siggy? it looks fine to me. Im a newbie with renders.

Also, how come my siggy won't update when i edit the [img] tags. it keeps returnign to the old broken link.

Those colors just don't really match and naruto doesn't really fit the theme of the sig imo.

-Not a fan of Tech
-The render looks like it was just slapped on with no blending
-Font is bad(I'm terrible at fonts too)
-The render is low res
-Way too big. My signature is pushing it in size, it's 125px by 400px
