Ok, I will post tha link soon but I was an idiot and put in a 12mb song as the backround music!
Retarded huh? And now I cant open the leveledit file.So I will have to redo the whole of the
commando parts over again.but here are some screenies of tha finished
product.http://www.n00bstories.com/image.fetch.php?id=19

whoooot!Im also stupid as only the host can hear the music aparently.here is tha link to it
though.http://www.fileplanet.com/dl.a spx?/planetcnc/ammo/nova/c_c_dm_cambodia.zip3 errors
on it, 2 PT zones (one on each chopper) dont work. but the other 2 do. the third error is a hole in
the map, but it doesent effect gameplay.You can play the map from this link or wait another
couple of days and get the map minus the 12mb song and the errors from renegade realm.But as
I said, me and a buddy just played it online 1 on 1, simply awsome fun! [January 21, 2003,

It actually looks like a decent map, ACK doesn't seem to have negativly commented yet so it must be good.
