I finally beat Guitar Hero One (which I hear is significantly harder than Two), on Expert Difficulty. The prize:

Toggle Spoiler

THIS

The best unlock I've ever gotten in a game. Without cheating.

PS: Due to the frustration involved in the process, my controller is now in pieces. Luckily I have three others.

By the way I'm really glad to see someone playing on expert. Especially actually beating the game. I am on a different level of Guitar Heroing here at school and... It sorta alienates me. Everyone plays on medium and they won't even try hard. They don't understand the fun of the battle. Fighting the song to get through. The feeling of accomplishment. I go to contests at Game stores and they always want to play on medium. Yeah that's fun, both people don't miss a note. One person wins by a few hundred points due to better star power usage. It's a travesty.

Ah, if only I could beat GH2, now.

My favorite thing now is to bring my friend (he plays bass in real life and is an expert bassist in the game) to a party and have us do YYZ on Co-op. Both of us on Expert. Draws one heck of a crowd.

Cowboys From Hell was insane. I broke two guitars trying to beat it. (RIP.) I blew a fuse on my subwoofer when the applause went off from beating the game. \*replaces with one in my pocket\*

On another note, this has re-kindled my love for the bass. I got a friend to dispose of my old "slicks" (smooth strings), and replace them with round-wound ones. They hurt like crazy, but they've got a good sound. I just learned how to play the bass-line for "Crazy on You" by Heart, and I'm trying to learn the one for "Carry on Wayward Son" by Kansas. Of course, I can only play by ear; I'm just a mimic.

Not one of my priorities.

You have to click "Toggle Spoiler" to see it. I didn't want people who intended on unlocking it to see it.

I actually played it for the first time this weekend (GH2, that is). But I only did "Surrender" on easy. For someone who has never touched the thing before, I did really well.

Anyway, just a similar milestone to share.

Heheh...

Taiko Drum Beat, or what's it called...

Nah, I play bass IRL, but I'm (regrettably) better at dulcimer because it's so freakin' basic.
