"CNCDEN News Article"New C&C3 Trailer Released!
Fri - Feb 16, 2007, 11:00 am [EST] posted by Lion

C&C3

(thanks zrgrvsh) The new C&C3 trailer I posted about yesterday is now available for downloading. Just click on the picture below to get it from Yahoo. It weighs in at a hefty 89MB, and well worth checking out. In my personal opinion, it's the BEST trailer to date. The cinematic scenes shown in the video are a much welcome back sight. Command & Conquer has returned to it's roots!

NOTE: Those of you who can't view the HD version of the trailer due to slow computer, etc...then you can check [HERE](#) on YouTube.

This is a must see. The video was done very well. It seems as though EA is really pulling through with this game.

They are going in the right direction with this. Congrats EA.

Pigs are not flying - check
The world is not spinning backwards - check
What the fuck? - check

Good job, for once, EA. Now I just hope this game will have a longer support than the average EA game. At least A LOT MORE than a year.

Hell needs to freeze before that. The C&C3 cut scene looks pretty good though. I especially liked it when the Ion Cannon Fired into the side of the earth.

The Ion Cannon blast was especially good. I hope all the cut-scenes and video's are that good.

It makes me wonder though...why did they act so concerned about using the Ion Cannon? Yeah, it probably had something to do with the fact that it sent shockwaves over a ginormous part of Earth, but then again how did it get so powerful?

It's in the future. Besides, it didn't just go from half killing buildings to wiping out continents. It was always very powerful, they just can't make it like that ingame for obvious reasons.

If EA or an EA title could be posted on this forum without someone slagging them off, and if so many people didn't have anti-EA stuff in their signatures, perhaps things would be different.

Respect is earned through actions. Disrespect often through prejudices.

Yup, Josh Holloway plays a part in the movies. I laughed when I read that somewhere this past week.

They could say the same about us.

I've said this a thousand times, but I'd rather have a new Renegade than 5 new C&C RTS games.
