hmmm i obviously wasn't around when that agreement was made. but how about this, i call my
map 'C&C_Temple_DM.mix' (my brother came up with the name and it would mean alot to him to
get it called that)and you call yours'C&C_DM_Temple.mix'as dante suggested if you agreed to
that then whats the harm of sticking to itproblem solved (whooo all that just over a name! in
future i will clam my fellow milk bandits down a little)

yeah im making a DM (or CTF) called temple. but I want to find a more unique name. And yes, all maps should be named like so:CNC_ DM_ Temple.mix^Game ^Mode
^Nameand of course if its cnc mode you just subtract the DM_ part.
