ok, my problem is that right after i click on the renegade logo to start the game, and a box titled "Error:CreateFile(C:\DOCUME~1\Luke\LOCALS~1\Temp\~f51e43.tmp) pops up. it says "access is denied". i have admin on my computer, and i just installed renegade and have nothing loaded on it (rengaurd, skins, patches, etc.) wuts the problem?

You're using the first decade? Did you try launching the game with game.exe instead of using the shortcut?

Go to

Start >> Run Then type: C:\Westwood\Renegade\game.exe

See if that works.

Did you try re-installing? Did any errors pop up when you were installing? All these little problems come out to be big ones in the future. Try re-installing.

Normally you can delete all files in that temporary directory. Try that .
