hello there !!

i have my own server on Westwood Online !

and does somebody have SSDM= Server Side Death match

Install SSAOW and set GameMode to 5 for Infantry only.

[General]

; GameMode=

;
;
; This setting determines what type of game will be played in your server.
; 1 = AOW, 2 = reserved for CTF, not yet implemented, 3 = sniping,
; 4 = 500 sniping, 5 = infantry only.
; Set GameMode to one of the above numbers only. Anything else will default to AOW.

GameMode=5

Unless you mean "true" deathmatch with only soldiers and no buildings at all?

Well, download the unrules map pack (www.unrules.com) and figure out what deathmatch maps you want out of it. Then put them in your server directory and add them to the rotation.

Anyone connecting to your server will need the map on their machine.

yes i mean true DM !

Do you want the Barracks to be available? Or do you want everyone to be minigunners ALWAYS no matter what?

Do you want purchase terminals available so people can refill or buy ion/nukes?
