Lol, If the SBH Is completely invisible, How fair would that be?

You're seen at a distance for a reason.

you never become invisible, it's why it's called stealth - If an enemy gets close to you they will see you. The same with stealth tank, if someone gets near the tank they will see it.

The sbh is invisible when u put it in the stank. The stank can get spotted then, though .

He means, how far away would it take for you to be invisible. Close up, you can see an SBH. But if it's far away, you won't see it.

I don't know the EXACT distance, but I'd say maybe about the length of 2 medium tanks in front of you. More or less, again, I don't know exactly.

It's pretty hard to explain something like that on a forum, the best way to get a feel for it is to host a server and get a friend to get an sbh and stank, then check how close you have to be in order to see him.
