The only time it looked like someone was cheating was when there was a gdi soldier raping him. :\
The rest of it was normal.

Right at the start when his SBH just loses 100armor and the sniper isn't even facing him?
Countless times on Canyon where that soldier took 100/100 before he could even fire 3 bullets?
Watch carefully

Like I said, the soldier part is the only part that looks like cheating. The part where the sniper isn't
facing him could be a few things.. Most likely there was another sniper that shot him, and even if
there wasn't it would have to be lag because there's not a cheat that lets you shoot backwards lol.

Ok I'll let you have that one. The map before valcano. (I can't remember it) Right at the end of
that this dude does 60 damage with a pistol. Now if you say he hit head then body but its 60 in
one go. Look at City flying. The dude clearly doesn't die... Then he HS repeatedly.. Hourglass the
4th time.. The other dude has SBH Hax.
