XWIS use the abbreviation RG for Renegade, not RenGuard.

To see RenGuard users, look at the bottom of the RenGuard window when it loads.

Most pointless topic about RG...ever?

Seriously, the 10Kb of database space this topic ends up using could quite nicely be used for roofgnomes or something.

To try and get some sense out of this: What's the WC stand for? I've seen it sometimes, and there's never more than one.

WC stands for Westwood Chat. Someone's bot must use that protocol. The ones using Tiberian Dawn's protocol belong to Black-Cell, but I have no idea who uses the other one.
