kk well what happend is i went on jelly-serevr and downloaded some skins, it says it is compativle with renguard but it says on the renguard software thst it isnt, please help me cuz i get '!rg' all da time. lol thnx guys

this is what the renguard says:

[22:40] Secure link established.
[22:40] Welcome to RenGuard, bringit!
[22:40] To launch Renegade, please click 'Renegade'.
[22:40] WARNING: Model Textures (Skins) have been detected on your client! You will not be able to join a pure server.
[22:40] RenGuard is downloading an important update for your Renegade.. Please hold.

You can ignore this warning. Model extures (aka skins) are compatible with Renguard as long as the server isn't run in pure mode (no serevrs are afaik).
