Ok gents,

Here is the fruits of my work for the last few weeks. I think it looks pretty good. But most of all, i learned ALOT from this whole thing and i'll continue to try and help other modders as well as keep making my own.

So lets get to the files.

The zip contains:

- 1) first person model and animation
- 2) 3rd person and back models
- 3) Firing sound

You are correct sir. The world box is the same size. And the model is pretty much exactly the same size as well.
