I'm not good at modding or mapping or anything i just think of things, but I noticed on all the dms they are tdms but if you want a dm you need ff on. So I was thinking maybe if you make everyone spawn as a neutral soldier with either a GDI or Nod soldier. This way the scores are character only scores instead of team scored. I'm not 100\% sure if this would be possible but it was a guess.

so far you can only have nod or gdi. you probably could add another side, like the mutants were supposed to, but it would require the blood of a newborn goat and the hairs of king edward the forth and some powdered frogs liver.
