WOL is down, but REOL is up (Renegade Evolutions On Line) get the connect conversion utility here <http://www.renevo.com/downloads/REOLLite.zip> and here is the readme.txt Thank you for participating in Renegade Evolutions. Please extract the small program REOL.exe to any directory (Renegade dir ok) and run. Next, press convert to change your hosts file to redirect to our servserv server. NOW, open up Renegade, goto Multiplayer Internet, then choose MY INFORMATION. Select one of the RE servers (Either RE Europe or RE USA.) Now play as normal Thank you, and have a great Evolutions Day. Dante. *Note, to revert to regular WOL, please do JUST the opposite of the steps above. THEN, run REOL.exe and click Revert. DONOT DELETE C:\hosts.bak if you do email me @ dante@cncrenegade.info on how

1) OK, how do I set up my FDS to host on REOL?2) I have Renegade installed in like 3 directories... so what is the name of the file that was edited so I can put it in the right place?
