hey, fall4mui here,
have a mod you want hosted? we have set up forums where any mod is welcome, we hope you at least stop by and enjoy your stay, just tell us if you want a mod hosted

<http://darktempeststudios.com/forums/index.php>

thanks for your time, we just started out and are requesting active members

How much FTP space are you offering then? Hosting mods is more than just providing a forum, they need somewhere to upload their files and such...

Renhalo is currently at 891 MB.
That is 340 MB of Sound/Music, 203 MB of textures, 180 MB of 3D models, and the rest are a mix of sound textures and 3D models.
File count is currently at 2,342.
