I'd like to play some random sounds, but I don't know if there is any random sound generator. (I know JW is making a script, but I can't link it to a script either ) I know that there is an Animals Twiddler but I can't get it to MAKE. Does anyone have information that could help me out?

well - in a building animation - you could assign sounds to come on at certain times - (like a siren at 75\%) i believe Bumpaneer was working on that.
