I'm watching Flight 93, and it's pissing me off. It's pissing me off how this whole thing happened. It's also pissing me off on how liberals insist that Iraq had nothing to do with 9/11 even though they're allied with these fucking monsters that orchestrated this. They gave medical attention to the damn al queda (I don't give a fuck how they spell it) terrorists. That's reason enough to crush these fuckers with all of our military might.

If you "bleeding heart" liberals really care about the common good, you can care about the common good of the middle east. If you assfucks can spend 56% of the government's budget on helping the poor, we can continue to finance the war. Get your heads out of your pompous asses. If you can spend my money on non-deserving, lazy retards, I can spend your money on freeing a country and helping to silence the people that orchestrated 9/11 and their allies. This is larger than your piss-poor attempt to make yourselves feel good by helping the "poor".

Just the ones responsible. I'm not a redneck/hick who thinks that every Arab is plotting to destroy America.

Liberals are the pigs of the world. They are the asswipers for the terrorists.

Look at bitch Pelosi...she is going to Syria to sleep with that terrorist president Azad or whatever his name is.

Syria is supporting terrorists and Pelosi bitch has to go there and tell em "we love you".

The blame doesn't always concern those countries (although they may house some people responsible). Iraq was to my mind mainly about Saddam Hussein and what he was doing to his people there. They said there were weapons of mass destruction but it seems they haven't been found even now. I am definitely pro going to war with Iraq and although the news is always negative on the matter (the death count is truly depressing). If you look at the big picture as to where these beliefs and extremities come from A LOT of them are actually coming from Pakistan. In Pakistan there are actually special camps that effectively breed these people and from them they will then go out and recruit. Although Pakistan does do something to get rid of them it probably doesn't do nearly enough and to be quite honest I don't know if any country in the world has the balls to take on what is a powerful Muslim state.

Overall I feel that the war in Afghanistan was the result of 9/11 (and rightly so) however 9/11 has been used as a reason to get the American people behind going to war in Iraq (the global war against terrorism). In my opinion the war in Iraq was only loosely related to 9/11 and was predominantly about getting rid of a Tyrant doing unspeakable things to his people and I think other people may share this (outside of the US).

OMFG!! This topic again!!! CLOSE IT NOW!!!

This is all, for the USA, (ok UK to) so that it may develop the more futuristic weapons for the next 30 years. May "The Most High" save us all.

Kill the "towel heads" and all their spawn.

Put all that want to fight, in the middle and we will still have the world as it is today.

"Kill the towel heads first"

I agree, fuck welfare and arm our troops with the best weapons and safety there is. I'm sick of all of the politically correct red tape and bullshit hoops we have to run through to get shit done now-a-days.

The war in Iraq is confusing. There are good things about it, but there are also a lot of bad things about it.

Nobody should have that "LET'S GO NUKE THEM FUCKIN' TOWELHEADS" attitude though.

That fact is irrelevant seeing as how we won't use them to:

- A.) Arm our troops.
- B.) Provide Safety for them.

CanadacdNobdy should have that "LET'S GO NUKE THEM FUCKIN' TOWELHEADS" attitude though.

I haven't seen that attitude here.

Republicans: Free the middle east from terrorism!

Pelosi/liberals: yea....but how about we cut budget, make our soldiers forcefully come home, then magically make the Iraqi government care about freedom within 1 day.

Republicans:....THAT WONT WORK!

Pelosi/liberals: Quiet! We control congress now, we can screw stuff if we want!

Yup, I agree with the creator of this thread, it does make me angry too how they just for no reason came in a jet and blew the crap out of our twin towers and pentagon...and dont say "there was no plane, twins fell from bombs"...I saw it in person, thank you....there were no bombs.....just 2 airplanes that hit supports and made the building fall from it's own weight.....if you claim bombs, conspiracy and all that crap, well shows how much respect you have toward the families that died on 9/11.

Slightly insulting....I am american and just think this.....train Iraqi soldiers to actually fight and stand up for a democratic goverment like everyone else has.....once they show they can, we get out....just like we did back in south vietnam, train them, then leave once our job is done...another thing, shut down the media of iraq, it's nothing but crap...people say mtv sucks...well....theirs sucks worse than mtv or sucky tv networks....my friend has satelite tv, he gets foriegn stations, he has a terrost station where it's like the news but crappier, they reported with english subtitles:

"what does america's favorite drink pepsi stand for? Pay every penny in survival of isreal"

Yeah thats some "peace" tv...racism..hate.....killing....showing kids with bombs strapped to them...thats some serious Peace.....lets see whats on the american networks....ooooo discovery channel..look at the flowers and animals.....if terrorist think peace is to kill everyone except them selves....then ummmmm whats animals and flowers? danger?!
