dino.w3d  
clown.w3d  
mrtickles.w3d  
Edit: trike.w3d

Anyone know more?

You want proof. Here it is. Here are all the ones that I have found. I don't believe that there are any others. I extracted all of these from Renegade's 'always.dat' archive.

I have attached the pack with the w3ds and textures, have fun.

Note: The chicken isn't included.

## File Attachments

1) [Hidden Characters \(W3ds and Textures\).rar](#), downloaded 82 times

[View Forum Message](#) <> [Reply to Message](#)

---

Ah. The download doesn't work. But if it's already part of renegade, then there's no use downloading it? Just give the w3d names so you can replace the normal one. What's the name of the old mutant that's in the middle?

Edit: The chicken's w3d path is "characters\chicken\c\_chicken.w3d"

Must've been bored, or these models are failed models (too big, too glitchy, etc). Or just for plain fun.

bluethen wrote on Sun, 15 April 2007 20:21 The only ones I know is:

clown.w3d (Clown)

dino.w3d (Dinosaur)

mrtickles.w3d (Mr. Tickles aka the mutant in the tophat)

squidfreak.w3d (The squid guy with one eye)

trike.w3d (The trike... o.O)

The troll-like guy in the middle is 'withered.w3d'

---

I found these whilst combing the always.dat a while ago and suggested the pack to be hosted at C&C source, but nothing ever came of it.

Thanks for the congrats Merovingian

Thanks.

add the chicken and your done...

The chicken is already in level editor, but you have to remake the preset or else it crashes the game.

Gen\_Blacky wrote on Sat, 14 April 2007 07:53 your renegade dosent have all those models but le has the presets Of course you can play as a Chicken or MrTickles and as a Visceroid too. The three can be found in LE.

If you set CnC\_Chicken as the SpawnChar in the SSAOW/SSGM, it will crash your Server. Making it buyable ingame does work though. The CnC\_Visceroid works as as SpawnChar (last tested on SSAOW1.5).
