Hey im currently making a renegade level, and i was wondering since im not too good at renx if anyone had some building files similar to the ones found in the map C&C_City. Like you know the civilion buildings right near the tiberium fields. Just something like that would be good, or if you know how to make one please tell me.

Make a box, and do boolean on it if you don't know what I am talking about, I suggest you find and use a tutorial.

Have Fun!
