I have a problem in running renguard, and i'm still new to this.. I Run renguard then it said...

[23:00] Warning. No WOL Name found. Connecting to WOL will probobly fail

How do i fix this thing???

Right...
All that means is that you have not used the online gameplay service before (or the registry key containing the data was lost)

You can ignore it at this stage, here's a link that shows you how to register a new nickname on XWIS (The replacement for WOL):
