same problem, and reinstall didn't help too, because when I activate it now, then Renguard is starting to download update.exe, but RG freezes then.

Update it manually

http://www.renguard.com/_auto_update/game.exe
http://www.renguard.com/_auto_update/game2.exe

Just copy those files to your rendir.

it works only for a few minutes and then this starts to happen

[09:00] Secure link established.

[09:01] Connection to master server timed out. Reconnecting...

[09:01] Trying to connect to server #1...Connected!

[09:01] Secure link established.

[09:02] Connection to master server timed out. Reconnecting...

what is up with that

and rg is kicking everyone out of the server; when we rejoin, a few minutes later kicked again
